

FM WO Chain Oil

ISO 220

Description

FoodMaster (FM) WO Chain Oil ISO 220 is made from Paraffinic white oils and special additive packages and are NSF H-1 listed for use where incidental food contact can occur. FM WO Chain Oil is a non-toxic, water-resistant lubricant recommended for all types of chain and conveyor applications in food processing machinery, pharmaceutical and other clean environments.

Applications

- General purpose chain lubricant where temperature is not an issue.

Certifications

Kosher Australia

- K-ID: FMJ-XTMT

SICHMA Halal

- Certificate number: 00562305ASL1/1K

NSF H-1

- Reg #: 145946

Features & Benefits

- Good service life
- Excellent corrosion and wear protection of the chain which reduces down time and provides longer chain service life
- Excellent adhesive properties which allow the lubricant to cling to the chain in use and resist water wash off in both cold and hot water
- Good high and low temperature operations
- Good oxidative stability
- Easy application by brush, bath or automatic lubrication system
- Solvent free formulation for greater safety in storage and use

Specifications

Properties	Method	Result
ISO Grade		220
Base Fluid		White Oil
Flash Point (°C)	ASTM D92	>180
Specific Gravity @ 15.6°C	ASTM D792	0.86
Viscosity @ 40°C	ASTM D445	220
Viscosity @ 100°C	ASTM D445	20.5
Viscosity Index	ASTM D2270	109

Master Item# 2477

Pack Size Availability: 20L, 200L
