

# SM Engine Flush Concentrate

## Description

**ShopMaster (SM) Engine Flush Concentrate** is an advanced chemical formulation suitable for use in all internal combustion engines. It is a top treat to be poured into the engine prior to an oil change. Engine flush contains a special formulation that helps clean and prepare an engine for a new fluid.

## Applications

All car and light van petrol and diesel engines.

## Features & Benefits

- Engine flush is recommended to be used at a rate of 500mL to 5 Litre crankcase
- Add engine flush to the existing oil in the engine and run the vehicle for 5 to 10 minutes at operating temperature. Do not drive the vehicle whilst the engine flush is in the crankcase
- Turn engine off and drain thoroughly
- Change oil filter and recharge the sump with the recommended quantity and grade of new oil

## Specifications

Properties	Method	Result
Specific Gravity @ 20°C	ASTM D792	0.852
Kinematic Viscosity @ 40°C	ASTM D445	2.71
Kinematic Viscosity @ 100°C	ASTM D445	1.11
Viscosity Index	ASTM D2270	99.6
Flash Point, °C, PMCC	ASTM D92	66
