

SM Petrol Injector Cleaner

Previously known as Super Injector Cleaner

Description

ShopMaster (SM) Petrol Injector Cleaner is a concentrated gasoline detergent which is formulated to clean carburettors, port fuel injectors and intake valves whilst controlling combustion chamber deposits. There is a wide variety of fuel additives on the market, and the better-quality products will provide a basic “keep clean” effect, ranging up to a deposit clean up effect depending on the strength and effectiveness of the product.

Applications

Use SM Petrol Injector Cleaner to 200mL at each re-fuel to:

- Maintain fuel injectors and intake valves in a like new condition for continued strong vehicle performance
- Reduce fuel injector deposits, thereby correcting the problems caused by them
- Clean intake valve deposits to restore lost performance

Features & Benefits

Fuel injector and intake valve deposits can lead to problems that affect engine performance. These deposits related problems can include:

- Dirty fuel injection system and carburettors
- Intake valve deposits
- Poor driveability – stumbling, stalling, or rough idling
- Reduced power and acceleration
- Decreased fuel economy
- Poor emissions

SM Petrol Injector Cleaner is formulated to eliminate the source of these problems – the deposits. By eliminating the deposits, vehicle owners can restore lost performance and fuel economy.
