

## SeaMaster Commercial Range

The SeaMaster Commercial Range of Marine Lubricants available upon request.

- 🔴 Cylinder Oils
- 🔴 System Oils
- 🔴 Trunk Piston Engine Oils
- 🔴 Detergent Oils
- 🔴 Hydraulic Oils
- 🔴 Gear Oils
- 🔴 Refrigerating Oils
- 🔴 Compressor Oils
- 🔴 Heat Transfer Oils
- 🔴 Turbine Oils
- 🔴 Greases
- 🔴 Biodegradable (EAL) Lubes

For additional information on the Leisure Craft products, visit our website [www.anglomoil.com](http://www.anglomoil.com).

# Maximum Protection High Performance Proven Formulations Value for Money

The SeaMaster Range has been divided into two groups, Commercial Range and Leisure Craft Range. SeaMaster by Anglomoil contains a range of diesel engine oils, outboard oils, gear oils and marine greases. All products have been formulated to meet the engineering and environmental challenges found within marine applications. The SeaMaster Leisure Craft Range meets manufacturers specifications including NMMA FC-W® and TC-W3®.

## SeaMaster Leisure Craft Range

Products within the **SeaMaster Range** include:

### SeaMaster 600 15W40 CK-4

SeaMaster (SM) 600 SAE 15W40 CK-4 is a premium engine oil designed for diesel engines and heavy-duty applications. SM 600 is a certified CK-4 oil as well as is approved by Cummins in compliance with Cummins Engineering Standards 20086 (CES20086). SM 600 15W40 provides unsurpassed control of soot, protection of highly stressed piston rings, and cylinder liners as well as exceptional protection of valve train systems used in modern diesel engines.

Master Item #: 1419

### SeaMaster Monograde SAE 10, 30, 40 & 50

SeaMaster (SM) Monograde diesel engine oils are available in a variety of grades, SAE 10W, SAE 30, SAE 40 & SAE 50. The SM Mono Range provides good wear resistance, engine cleanliness and high temperature oxidation stability. The unique formulation provides a high total base number (TBN) indicating high alkalinity.

Master Item #: SAE 10 = 1007, SAE 30 = 1009, SAE 40 = 1011, SAE 50 = 1012

### SeaMaster Super Two Stroke (2ST) Outboard Oil TC-W3

SeaMaster (SM) Super Two Stroke (2ST) Outboard Oil is a mineral oil suitable for high-performance water-cooled and air-cooled engines. The oil has a viscosity of about SAE 40 but it is diluted with a solvent to facilitate mixing and dispersion in the fuel. SM Super 2ST Outboard is particularly suitable for 2ST engines operating under severe conditions, eg. High speed boats, water skiing, etc. It can be premixed with the fuel or used in direct oil injection systems at the ratio recommended by the engine manufacturer.

Master Item #: 1407

### SeaMaster Ultra Two Stroke (2ST) Outboard Oil TC-W3

SeaMaster (SM) Ultra Two Stroke (2ST) Outboard Oil is an ultra high-performance semi-synthetic motor oil. It has a high film strength, ester-based lubricant providing high power output whilst controlling engine temperatures. Suitable for air-cooled and water-cooled units.

Master Item #: 1405

### SeaMaster Four Stroke (4ST) Outboard Oil 10W40 FC-W

The SeaMaster (SM) Four Stroke (4ST) Outboard Engine oil is a semi-synthetic marine oil formulated with the latest additive technology for use in four stroke petrol engines. It is recommended for use in petrol fuelled outboard, inboard/outboard (I/O), and personal watercraft/leisure craft motors. SM 4ST SAE 10W40 offers unsurpassed wear protection, excellent rust and corrosion protection, viscosity stability, low volatility and NMMA FC-W catalyst compatibility.

Master Item #: 1401

### SeaMaster Outboard Gear Oil SAE 90

SeaMaster (SM) Outboard Gear Oil (GO) SAE 90 provides an outstanding lubrication and wear control, protection against gear teeth scuffing and are compatible with oil seal material and protection against corrosion. SM Outboard GO is a mineral extreme pressure lubricant with an SAE 90 viscosity, specifically formulated for manual outboard gear boxes and stern drive units.

Master Item #: 1403

### SeaMaster Synthetic EP Gear Oil SAE 90

SeaMaster (SM) Synthetic (Syn) Extreme Pressure (EP) Gear Oil (GO) SAE 90 is a synthetic gear oil specially formulated for marine gearboxes. Under arduous conditions, marine gearboxes generate very high temperature, and these gearboxes can be further stressed by infiltration of water. SM Syn EP SAE 90 is formulated to provide long service life under these conditions, providing oxidation stability, good demulsibility in the presence of water and protection against corrosion.

Master Item #: 1409

### Inplex 2163-220 No. 2 Grease

The Inplex 2163-220 No. 2 is a calcium sulphonate grease designed for heavy duty use. It is excellent for use in marine type applications where water washout and corrosion are of primary concern. Inplex 2163 contains no heavy metals or other harmful or environmentally undesirable additives such as sulphur, phosphorus, chlorine, zinc, antimony, barium or lead. Benefits include; outstanding mechanical ability, excellent load carrying ability, excellent thermal stability, excellent oxidation stability, excellent resistance to water, very good water washout and excellent corrosion resistance.

Master Item #: 1813
