

AM Spindle Clean Concentrate

Description

AgriMaster (AM) Spindle Clean Concentrate is a specially formulated emulsifying, solvent technology designed for cleaning of spindles in industries such as harvesting, board laminating mills, timber sawmills, pellet processing mills, timber chipping operations and similar applications.

Spindles in these industries are subjected to resin build up on spindles which impact performance and efficiency of operations. The AM Spindle Clean Concentrate is formulated to be able to dilute to very low concentration levels to prevent resin build up on shafts and spindles.

Features & Benefits

- Concentrate can be diluted to levels below 0.05% delivering a cost effective solution
- High solvency of solution restricts the build up of resins increasing operational efficiency
- Corrosion inhibitors prevent corrosion formation
- Balanced formulation allows for use of most clean water types

Specifications

Properties	Method	Result
Specific Gravity @ 20°C	ASTM D4052	0.8862
Kinematic Viscosity @ 40°C	ASTM D445	12
Pour Point, °F (°C)	ASTM D5949	<-40
Sulphur (ppm)	ASTM D7212	106

Additional Information

- Add AM Spindle Clean Concentrate to water at ratios of approximately 0.05%.
Dependant on severity of resin build up on application
- Use with most water types that are generally clean and free of detergents
- Concentrate should be stored under cover in colder climates

Master Item# 2082
Pack Size Availability: 20L
